By an entertainment given by some of our summer friends, there was raised the sum of fifty-nine dollars, which is being used for the purchase of juvenile books for the boys and girls.

There is a steady gain in the number of patrons to the library, and our boys and girls are manifesting more interest than formerly and are taking home each week more books to read.

And our citizens are awakening to the fact that the books in the library are their own, and that they will enjoy them. And it is hoped that the present year's records will evidence a still larger appreciation of our town library and its advantages to the people.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Fitzwilliam:

I have the honor to submit herewith my third report as superintendent of schools.

The past year has been one of progress. The graduates of our schools have passed their entrance examinations at Troy and at Keene without a single failure, and in the schools which they have entered have maintained a standing creditable alike to themselves and their preparation. In fact, the showing made by the Fitzwilliam pupils in their high school entrance examinations last June was so excellent as to call forth from the state superintendent the remark that the Fitzwilliam children passed the best entrance examinations of any children in the state. Several of the papers corrected received markings of one hundred per cent.

The school board and superintendent have exercised great care in selecting teachers, but we have had to work under the disadvantage of being unable to see candidates before making a selection. The salaries we pay are so small and we live at so great a distance from the educational centres that teachers seeking positions with us are not justified in incurring the expense of a trip to make a personal application. We have had several changes in teachers; rather too many for the best interests of the schools. These changes have been inevitable, however, and I feel that they have resulted in our having an excellent corps of teachers at the present time.

The school board and superintendent have paid consid-

erable attention to the hygienic welfare of the pupils. Sixteen adjustable seats and desks have been put into the primary schools at the Depot and at the Village. These seats and desks have relieved several children of the necessity of sitting in cramped positions. The dangling of feet above the floor has been avoided by the use of short pieces of planking for foot rests. It is desirable, although not absolutely necessary, that every seat and desk in our schoolrooms be adjustable. It is necessary that we add more adjustable seats and desks as rapidly as our appropriations will permit.

I have paid some attention to testing the sight and hearing of the children, and I hope by the end of the school year to have a record of the sight and hearing of every pupil. The tests made are very simple, but are highly important because they enable me to give intelligent advice to parents concerning the physical and intellectual welfare of their children. Many so-called stupid children are backward simply because of defective vision or in sufficient hearing. It is to help such children that I am giving these tests.

The interior of the Columbian building has been greatly improved by being put into a condition of good repair. The rooms are now attractive and pleasing and help to make the lives of the children happy and cheerful.

I have conducted one teachers' meeting. This meeting was the most satisfactory teachers' meeting I have ever held. The teachers present asked questions freely and entered into the discussion heartily. I have no doubt that a greater number of such meetings would be highly profitable.

I have tested the work of the children repeatedly. In fact, it was partly due to such tests that our graduates of last June were able to pass their high school entrance examinations so well. I have helped teachers to plan their work and have given them pedagogical instruction whenever necessary. I have sought to correct faults in discipline and management as fast as I have detected them. Much of this work has been routine and routine of a kind that has used up a great deal of time. I have taken great pains to get at the truth whenever

serious differences of opinion have arisen among parents on matters connected with the management of the schools and have reported the facts to the school board.

In closing, I wish to thank the community for the cordial support given me in my work and the school board for their unswerving loyalty to the best interests of the schools.

Respectfully submitted,

AUSTIN H. FITTZ,

East Jaffrey, N. H., Feb. 16, 1909.

REPORT OF SUPERVISOR OF MUSIC.

Mr. Austin H. Fittz, Superintendent of Schools.

Dear Sir:—I have the honor to submit my third annual report.

As required, I have visited the schools of Fitzwilliam once each year during the spring and fall terms of 1908. Each teacher has been provided with an outline of work to be done during the winter term.

The work of the past year has been one of progress. As before, ear training, tone, interval, and written work has been given in all grades.

The New Educational First Music Readers have been introduced into two schools. Silver Song Series, No. 6, a book of three-part songs selected for their beauty of melody and words and suggestiveness of harmony has been put into the Columbian and Center grammar schools for supplementary work.

I wish to thank the superintendent, school board and teachers for their unfailing interest and assistance.

Yours respectfully,

EDITH M. GRIFFIN,
Music Supervisor.

Westminster, Mass., Feb. 15, 1909.

CHAS. L. HASKELL,

The undersigned having examined the above report of the treasurer of the school board finds the same correctly cast and properly vouched.

J. M. PARKER,

Auditor.

Fitzwilliam, Feb. 22, 1909.

REPORT OF BOARD OF HEALTH.

During the past year Fitzwilliam has been remarkably free from contagious and infectious diseases.

Four cases of measles occurred in one family, but the house where the disease appeared being isolated, no others contracted the trouble.

Two houses have been fumigated as required by law, deaths having occurred therein from tuberculosis.

Containers have been obtained and water sent to the state laboratory for analysis for any who wished it.

We have attended to such complaints as have been made to us and disposed of same in such manner as seemed most advisable.

ARTHUR T. BYAM,
GEO. S. EMERSON, M. D.,
Board of Health.
